Presidential Messge

Fellow LSRT Members,

The LSRT Midwinter Conference was a huge success. I would like to send a special thank you to our Meeting Planner, Jaclyn Peters, and our local committee in central Louisiana. They were instrumental and ran all three of our programs with apparent ease. Thank you also to our vendors and sponsors for your support. We had a great turnout!

These past few months have been productive for the LSRT board as well, and I am very proud of the team we have. Our Legislative Affairs Committee, Advocacy Task Force, and several board members met with the ASRT's Advocacy Leaders last month to formulate a Legislative Action Plan. This plan will be implemented should any legislation be presented which would affect Louisiana's Radiologic Technologists. There is still not an official motion in play as of yet for limited licensure, but we will be more prepared now should one surface.

Our other goals for the board have been to formulate a strategic plan and to complete an overhaul of our current website. The strategic plan describes our goals as an organization and measures to determine the effectiveness of our efforts to meet our mission. A draft of the plan basics was shared on social media in early March to request feedback from the public. Should you have any ideas or concerns, please contact me to provide those. The website changes will be coming in the latter part of this year, and we are excited to have the opportunity to make these changes thanks to the ASRT Affiliate Development Program.

We are making preparations for this year's Annual Meeting. This event will be held at the Renaissance Hotel in Baton Rouge on July 14-16, 2022. We have sponsorships and recruitment opportunities left for the event should you be interested. If you have never attended one of our events or it has been a

Call for

Nominations for LSRT Officers 2021-2022

The nominating and credentialing committee is now accepting nominees for LSRT Officers for the 2021-2022 year. Nominations are needed for President-Elect, Vice President, and Recording Secretary.

Nominations and questions regarding the officer criteria are to be made to chairperson Monica Weber, MSRS, R.T., (R)(M).

mweber@mcneese.edu

Attention, all students and technologists who are members of the LSRT in good standing, if you have a GPA of 3.0 or above and have a need for financial assistance in pursuing your educational objective in Radiologic Science. It's time to apply for the *Joe Schwartz Memorial Scholarship*.

The application and the rules for this scholarship can be found on the official web site of the Louisiana Society of Radiologic Technologists (LSRT) at www.lsrt.net under the student tab and clicking on the scholarship link or by contacting Carmen George at lasocietyradtechs@gmail.com or by calling 1-318-235-6194 and leaving a message with a phone number or address. Written requests for the scholarship applications and rules should be addressed to the LSRT at 12521 Sherbrook Drive, Baton Rouge, LA 70815. All completed scholarship applications must have a USPS postmark of no later than **April 15, 2022**

The LSRT is very pleased to offer this scholarship in the name of one of its past presidents, **Mr. Joe Schwartz**. Joe was a life member of the LSRT and was a true professional in every aspect of the word. The LSRT wishes to remember him by offering a scholarship in his name so that others may have the opportunity to pursue the career that Joe so loved. The next Joe Schwartz Memorial Scholarship will be awarded during this year's Annual Meeting in Baton Rouge.

Nominations accepted accepted until April 15, for 2022 LSRT Technologist and Student Of the Year

It is time for LSRT members to nominate those individuals who have gone above and beyond their daily career objectives. These individuals should be recognized for their achievements and contributions to LSRT and the profession. These individuals deserve to be recognized and any LSRT member has the

to nominate an individual. All nominees must be LSRT Members. All nominations will be reviewed and recipients will be selected by the LSRT Board of Directors. Any members wishing to make a nomination should submit a curriculum vitae for each nominee and a brief statement of their qualifications. Please submit all nominations to:

**Alyssa Bell, Chairman -
LSRT Board of
Directors
41484 Merritt Evans Rd,
Prairieville, LA 70769

*All nominations must be
received by email or
USPS postmarked no
later than 4/15/22*

Presentation of awards to
be made at 64th LSRT
Annual Meeting.

Quiz Bowl 2022

The LSRT will hold the Student Quiz Bowl competition at its Annual Meeting to be held in New Orleans, LA Friday July 23rd 2021. Detailed information and applications will be sent to each Radiography program in the state in early May.

To access the Quiz Bowl rules and regulations go to LSRT.net and click on competitions. For more information, please contact: Mary Guo, RT (R) Chairperson of Student Affairs, e-mail: mjguo1@gmail.com or See you in July!

Kristen Wells, M.Ed., R.T.(R)

Celebrating with the hubs my final radiation treatment!

Dancing through the Diagnosis!

TIKTOKING THROUGH TREATMENT

A TECHNOLOGIST'S JOURNEY THROUGH CANCER

It is the words no one wants to hear, "Unfortunately, it is breast cancer". At that moment, a thousand things went through my mind, the top three of which were confusion, shock, and absolute terror. Watching my husband crumble before my eyes, my sons' sorrowful cries of not knowing what was happening and why their mom and dad were so sad. The gut-wrenching sobs and dread that followed that day will always stick with me. In the days following, I realized I had a choice to make. I could let this unfortunate diagnosis bring my family down, or I could move forward reaching down inside myself and fight. Of course, I chose to fight.

Being a radiologic technologist and educator for almost 16 years now, I had some comfort in knowing that I would be familiar with some of the exams and procedures I would be having done. As the one that normally provides the medical care, having to now be the patient was frightening. Surprisingly, having the support of my radiology family was something that brought me comfort. It was amazing to see technologists in our field be part of my treatment. With all the unknowns surrounding my journey, seeing a friendly face while having my mammograms, ultrasounds, MRIs, guided biopsies, and radiation treatments was something that gave me strength through this process. Even without actually knowing the technologists, I felt we immediately had a connection working in the same field.

I realized that the positivity and care they showed really affected the way I approached my treatment. Knowing that they were in the position to be the light in a dark situation really brings everything full circle. Throughout my diagnosis and treatment, I was able to make many new friends in our profession. Through these interactions, I was able to experience first-hand how important our roles are as part of the health care team. I want to make sure I continue to show my own patients that they matter and will be well taken care of.

There were many things that gave me strength, primarily being my support system and tons of prayer. My family and friends became the rock I needed to persevere. I was humbled at the amount of people that voiced their support, love, and prayers for my journey. As we go through life, we sometimes forget that we are not traveling our paths alone. There are people that are with us to offer support, encouragement, prayer, and rejoice in our accomplishments.

I soon realized that staying positive was essential during this time in my life. I began to look at the positives in everything about my situation and realized that I am lucky and thankful for the life I have. I realized I could not change my diagnosis, and it could have been much worse. I began to find things that made myself and others smile including doing silly TikTok dances after my chemo and radiation treatments with my husband and wearing what I called my cancer-fighting light-up shoes to every appointment. The shoes caught people's attention and put smiles on their faces. The dancing gave me something to look forward to on days that I would otherwise be feeling down. Soon I became known as the TikTok girl. Causing people to look forward to my weekly dances put joy in my heart knowing people were rooting for me.

This diagnosis not only affected my personal life, it also had an impact on my professional one as well. I began to notice that my positivity was spreading to others around me and giving others strength in their situations. As an Assistant Professor and Clinical Educator in Radiologic Technology, I decided to continue working through all my treatments, trusting my body to let me know if I was pushing too hard. When technologists would see me, they would be so surprised that I was there pushing through and still doing what I love. I feel it helped them to see me and know that if I could stay strong, then with any situation in their lives they can stay strong and get through as well. God had given me a platform to share my journey and help others show them that there is strength deep inside everyone.

I have now healed from surgery, successfully completed my 12 rounds of chemotherapy, as well as my four weeks of radiation therapy. I am happy to say I am feeling great! I am slowly getting my energy back and of course continuing to work in our profession. I still have more hurdles to go and, of course, continuous follow-ups, but with staying positive and knowing my strength, I know that I can do all things through Christ who strengthens me.

"The positivity and care they showed really affected the way I approached my treatment"

Scientific Essay
Competition
DEADLINE for
Entry
May 15, 2022

2022 Scientific Essay Competition

Enter the LSRT's Competitive Scientific Competition! You can share your expertise and knowledge with others in your profession and win cash. All applicants will receive a participation certificate. Prizes for 1st, 2nd and 3rd places in both categories are \$200, \$100, and \$50, respectively.

All LSRT members in good standing are eligible to compete for awards with a few exceptions (listed in official rules). The official rules for the LSRT Scientific Essay Competition are located on the LSRT website. There are categories for both student and technologist for both the essay and the exhibit competitions.

Scientific Essays

Scientific Essay Rules can be obtained at www.lsrt.net or by contacting Sarah Barnes, MBA, R.T.(R)(CT), at sbarnes@lsua.edu,

Deadline for submission: *The essay application, and the actual (original) essay, and another copy with no identification marks must be electronically submitted no later than **MAY 15, 2022** to sbarnes@lsua.edu*

2022
Scientific Exhibit
Competition
DEADLINE for
Application
June 15, 2022

2022 Scientific Exhibit Competition

The LSRT is excited to once again sponsor a Scientific Exhibit competition! Entry is available for two categories: technologist and student.

Would you rather collaborate and enter as a team? Applicants may enter as individuals or as a group! This is a great opportunity to share your expertise and knowledge with others in the profession.

All applicants will receive a participation certificate. Prizes for 1st, 2nd and 3rd places in both categories are \$200, \$100, and \$50, respectively. All LSRT members eligible to compete are encouraged to apply.

Please visit information linked within the *competition* heading at www.LSRT.net for official rules, scoring rubric, application and previous exhibit examples.

Applications must be emailed to the LSRT President Elect no later than June 15th, 2022. Submit your entry application to President Elect Allison Puente, MSRS (R)(CT)(ARRT) at APuente@McNeese.edu. Good luck!

- **A Total of 15 CE Credits will be available for Technologists. All Lectures have been approved for ASRT Category A CE** and are being submitted to ARRT CQR Credits. Student and Specialty Tracks are in-person only. Virtual Option for Technologists will be offered for the 2-Day General Radiography Track Program only. All virtual participants will be emailed the Program with Links and Required Post-Lecture Quiz/Surveys 48 hours prior to the event to the email used to register. In-Person attendants that are pre-registered can check in on any of the 3 days during the times listed on the program only.
- We will have several vendors onsite, giveaways, door prizes, and opportunities to network with all in attendance. There will be hand sanitizing stations in every door entry to meeting rooms and in every location for food service. We encourage vaccination or masking, but we will not enforce it unless the state or facility requires that of the meeting space use. We ask that anyone that is experiencing any symptoms of illness, including COVID 19, to please refrain from attending in person. We will gladly switch your in-person attendance registration to a virtual one with a request via email to LASocietyMeetingPlanner@gmail.com prior to July 10, 2022 at 5pm only. No refunds will be issued for the difference in cost in those two registration options, if not able to attend due to symptoms, or for refund request after July 4, 2022 at 5pm. The cost of the event are set within that time frame and cannot make changes to the totals guaranteed after that date, so NO refunds will be available within 10 days prior to the event. It is our suggestion that if you can, request in email to have your registration changed to virtual for Technologists to earn the CE credits in that manner.
- The event is at the Renaissance Baton Rouge Hotel and our room block rate (\$119 per night!!!) is excellent for this beautiful facility located in a great setting of the Capital city! Incredible shopping, one-of-a-kind restaurants, and entertainment is within a mile of the event hotel. This LOW room rate for the event is available through the link only from the Wednesday prior to the Sunday following the event- so make it an extended stay and enjoy the surrounding area while you are here at the 64th Annual Meeting. Free Parking is available for your entire stay here with the Renaissance and LSRT. You MUST use the link to book and get the discount *before Monday, June 20th at 5pm!* No Third Party booking or cancellation available through LSRT. -Book through this link ONLY: <https://www.marriott.com/event-reservations/reservation-link.mi?id=1634237098263&key=GRP&app=resvlink>
- This event will include great food selections for several meals and breaks while in attendance all for one price! We will have some of the best national and local speakers the LSRT has to offer to all of those in attendance- Students, Imaging Professionals, and Specialty Imaging Techs as well.

The 64th Annual Meeting of the LSRT will rock and you don't want to miss out on all of the fun! So, let's blast BACK TO BLACK and pay tribute to the FOUNDATIONS that make us great and stand on those as we look forward to the future of the profession- TOGETHER!

Please let us know if you have any questions!
We are happy to help-

LSRT Needs You

Positions Available

The LSRT currently has 2 openings on the Executive Board. The positions available are Executive Secretary of Finance and Meeting Planner. Both positions are appointed by the Executive Board and are critical to the success of the society.

The ***Executive Secretary of Finance*** is responsible for maintaining all monies and funds pertaining to the LSRT. The member holding this position will be involved in quarterly board meetings and assist the board in all things financial.

The ***LSRT Meeting Planner*** is responsible for the overall planning of the Mid-Winter and Annual meetings of the society. This includes but is not limited to securing a location, facility arrangements, CE credit submissions and a local committee to chair the events.

Eligibility and Qualifications - All Board appointments shall be active members of the LSRT and the ASRT and shall maintain their membership while serving as board appointees. Board appointees shall have a current license to practice Radiologic Technology in the State of Louisiana if applicable. A Board appointee may serve the LSRT and the LSRTBE simultaneously

For a complete list of duties and benefits associated with either of these Executive Board Appointments please see the Bylaws and Procedural Guidelines manual on our website at www.lsrt.net.

If you are interested in one of these positions or would like more information please contact

Alyssa Bell, Chairman - LSRT Board of Directors

2022 Student Bee Winners

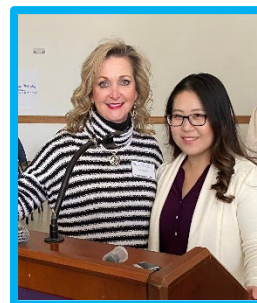

Article submitted by **Mary Guo**, LSRT Chairman of Student Affairs

The **LSRT Student Bee** was a great success thanks to the many students who participated and techs who volunteered their time to assist. The Student Bee a Junior Student competition was held during the LSRT Midwinter Seminar Saturday, March 12, 2022. Seven programs participated in the event, with **Susie Beasley** serving as Moderator. The event took place on the LSUA campus. The 2022 winners were:

1st place: **Emma Craig**, *Northwestern State University*;

2nd place: **Anh Nguyen**, *University of Louisiana at Monroe*;

3rd Place: **Sara Cockerham**, *University of Louisiana at Monroe*;

Left to right Moderator
Susie Beasley, Chairman
Mary Guo

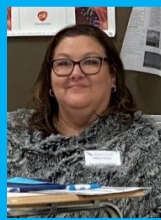

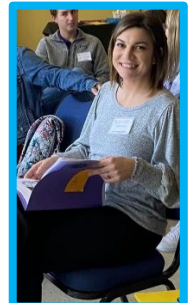

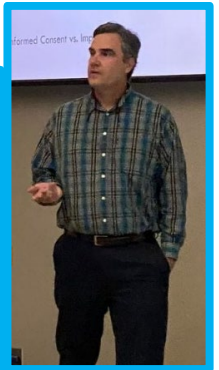

The Student Affairs Committee would like to thank everyone who helped make this event a success, Judges included Greg Bradley, Ally Puente, Heather Koepp, Stephanie McKenzie; Alyssay Bell served as time keeper, Anne Treme and Zephaneth Zoleta assisted in checking student in and keeping everything organized and running smoothly.

**The individual competition is completed with the 2022 Student Bee behind us,
Get Ready for the team competition by participating in the 2022 Quiz Bowl**
